Paramed Systems Vital Note

Fran Hildwine, BS, NREMT-P,
CCEMT-P

January 2009 JEMS Vol. 34 No. 1
2008 Jan 1

Keeping track of vital signs for one patient isn't too difficult. Keeping track of vital signs for several patients at the same incident can be quite a task. Vital Note from Paramed Systems lets you keep vital signs

with each patient. By simply cutting a section of the tape and sticking it to your leg, you can easily write down pertinent info. You can then place this note on the patient for future reference or pass it along to the transport crew. And fear not, the tape is hypoallergenic.

VITALS

Dimensions (per roll): 2" x 30', 2" x 50'

Patient treatments per roll: 50 treatments, 85 treatments

Cost (per box): \$19.99 (30'), \$23.50 (50')

877/MED-1080
