"We are pleased to be presented with such a prestigious award for the MOV Powered Stair Chair" said Nate Walkingshaw, President and CEO "the chair has significant capabilities over anything in the market, and has been readily embraced by the industry."

Paramed developed the dual-track MOV in response to industry demand for a 500 pound capacity stair-chair capable of safe stairway ascents and descents. The MOV has been designed to significantly reduce the inherent risk of back and lower abdominal injury for the care giver when transporting a non-ambulatory patient up or down stairs.
